

Korenix Announces JetI/O 6550, a New Managed Ethernet I/O Module!

Taipei, Taiwan, Oct., 2008 –JetI/O 6550 is a Block I/O module equipped with 14 channels Digital Input, 8 channels Digital Output. JetI/O 6550 provides 16-bit resolution and high accuracy. It also supports event counter for DI mode, pulse output for DO mode. The flexible Conditions&Go (IF-Then) rules can help users to define intelligent logic rules for remote I/O control.

JetI/O 6550 provides Windows Utilities, SNMP and Web for configuration. Industrial Modbus TCP protocol and OPC Server driver for integrating JetI/O with existing HMI/SCADA. Robust aluminum case has good heat dispersing and IP31 protection. With JetI/O users can easily perform status monitoring and control remote I/O devices.

Major features of JetI/O 6550 Managed Ethernet I/O Module

- 14-Ch Digital Input with DI and Event Counter mode
- 8-Ch Digital Output with DO and Pulse Output mode
- Intelligent Conditions&Go (IF-Then) logic rules
- Active events by logic rules or SNMP Trap
- Supports OPC Server Driver
- Windows Utility, OPC Server Utility, Modbus TCP protocol, SNMP and Web management
- Built-in watchdog timer and real-time clock
- Din-Rail Mount with Robust Aluminum case and IP31 protection

About Korenix Technology

Korenix Technology is committed in design and manufacturing industrial communications products for use in various markets that require high stability or for industrial field environments, such as POS, banking, telecom, transportation, industrial automation, energy, power, military, and medical fields.

Korenix has eight major product lines: JetRock Series IP67/68 Industrial Ethernet Switch, JetNet Series Industrial Managed and Unmanaged Redundant Ethernet Rail Switch, JetPoE Switch Series include PoE managed and unmanaged switch, JetBox series communication computer, JetPort Series RS-232/422/485 3-in-1 Device Server, JetI/O Ethernet-based block I/O modules, JetCon Series Industrial Serial/Ethernet/Fiber Media Converter and JetCard Series Multiport Serial Card. Korenix is committed to provide quality products to our customers. Various safety approvals, such as EMI, EMC, EMS, UL, cUL, are applied to all Korenix products. All Korenix products have 5-year global warranty through worldwide service centers.

For customers' specific application requirements, Korenix also provides tailor-made services. Korenix listens to customers' voices, designs professional products, and provides comprehensive services to make Korenix a reliable partner for global users.
